

## JAYCO LUXURY FIFTH WHEEL PACKAGE

MOR/RYPDE® PIN BOX

PIN BOX

MOR/ryde is widely regarded as the best name brand in towing systems in the industry. The company has years of history perfecting its systems to make the towing experience as smooth and enjoyable as possible. We're proud to use MOR/ryde pin boxes on all of our Luxury Fifth Wheels. The combination rubber isolator and chucking reduction system make this pin box the best in the industry. Many competitors use air bag pin boxes, which successfully handle up/down movement, but do little for the issue of chucking. Other systems, designed to reduce the chucking, don't have rubber isolators to help with the up/down vibration. The MOR/ryde pin box covers both—making it one of the most sought-after aftermarket systems for Fifth Wheel owners. We save you the time and money of a retrofit by making MOR/ryde pin boxes standard on all Jayco Luxury Fifth Wheels.
