It is important for your safety and enjoyment that your tow vehicle be adequately sized and equipped to tow and handle the GVWR of the RV you select. Review weights and rating of your tow vehicle and consult a competent advisor for questions or advice. Whether you are new to RVing or a veteran, get a feel for the performance of your tow vehicle before heading out on the roadways. When you tow an RV, you must drive differently than when you drive a single vehicle. Practice hooking up, driving, backing up and braking in a safe environment or seek out professional instruction. Jayco affixes a weight label to each RV which lists weight information for that vehicle. See specifications chart to the left.

**Unloaded Vehicle Weight (UWV):** Sometimes referred to as "Dry Weight," UWV means the typical weight of this trailer as built at the factory. The UWV, as used in product literature and other promotional materials, does not include cargo, fresh water, propane, options or dealer-installed accessories.

**Gross Vehicle Weight Rating (GVWR):** GVWR means the maximum permissible weight of the trailer, including the UVW plus personal items, all cargo, fluids, options and dealer-installed accessories. The GVWR is equal to or greater than the sum of the UWV and the CCC.

**Cargo Carrying Capacity (CCC):** CCC means the maximum weight of personal items, food, fresh water, propane, tools, other cargo and dealer-installed accessories that can be carried by the trailer. CCC is equal to or less than GVWR minus UWV. The addition of options will decrease the CCC.

**Hitch Weight (HW):** The hitch weight, as used in product literature and other promotional materials, does not include cargo, fresh water, propane gas, options or dealer-installed accessories. The addition of these types of items will either add to or subtract from the stated hitch weight.

\*Distance from the pin box to the bumper; total exterior length may be longer.

## 5-STAR HANDLING PACKAGE

The 5 Star Handling Package is a Jayco exclusive, a powerful blend of high-end components that make pulling a luxury fifth wheel a breeze.

<p><b>DEXTER AXLES WITH NEV-R-ADJUST BRAKES</b> The Benchmark of the trailer industry!</p>	<p><b>MORRYDE PIN BOX</b> Allows pin box to travel forward and backward as well as side-to-side, creating a smoother tow.</p>	<p><b>DEXTER HEAVY-DUTY SHACKLES WITH WET BOLT FASTENERS AND BRONZE BUSHINGS</b> Resists the wear-and-tear of towing.</p>	<p><b>MORRYDE RUBBERIZED SUSPENSION SYSTEM</b> Better absorbs and isolates road shock.</p>	<p><b>GOODYEAR BEAST TIRES</b> Made in the U.S.A. and featuring the patented Durawall® technology.</p>

JAYCO'S ROOF **vs** OTHER ROOFS  
4,500 POUNDS ON A JAYCO ROOF VS. OTHER ROOFS

**50% Stronger!**

## CLIMATESHIELD

Extend your camping season with the Jayco Climate Shield.

It protects against extreme heat and extreme freezing—even in temperatures as high as 100 degrees or as low as zero degrees (Fahrenheit).\*

**LIVING ROOM**

**KITCHEN**

**BATHROOM**

**HOLDING TANK**

**BEDROOM**

\*Jayco tested fifth wheels in zero degrees F and 100 degrees F weather over an extended period of time in a controlled environment, and all functions of the coach were fully operational. Testing was done in a completely controlled environment; therefore, temperatures during testing may not represent actual temperatures in nature and cannot account for elements such as wind or moisture. In actual use, unit may not perform as well. Supplier of cooling components does not guarantee anything better than 20 degrees difference from ambient temperature. In addition, outside components are subject to freezing and require steps to properly insulate. Jayco's limited warranty does not cover damage caused by freezing. To learn more about Climate Shield and testing done by Jayco, visit [www.jayco.com](http://www.jayco.com).
